EXECUTIVE SUMMARY

I am an aspiring IT professional with strong programming and analytical skills in web development and database management. Skilled in delivering efficient software solutions and collaborating effectively in team environments. Passionate about continuous learning, innovation, and contributing to dynamic digital projects.

TECHNICAL SKILLS

PROGRAMMING : Python, HTML5, CSS3, JavaScript, React, Node.js, MySQL.

SOFTWARE : Figma, Git Hub, Tabealu (Data Visualization).

EDUCATION

2021-2025	B.E (Electronics and Communication Engineering)	Kongunadu college of Engineering and Technology, Trichy, Tamilnadu.
-----------	---	---

WORK EXPERIENCE

KRIYAETIVE VERSE | JUNIOR SOFTWARE ENGINEER (Apr/Nov - 2024)

- Completed an 8-month IT internship where I gained hands-on experience in web development, deployment ,design and database management. Contributed to real project work, strengthening my technical skills and teamwork in a professional setting.

PROJECTS

Quiz Application : Developed a dynamic quiz application using React, Node.js, and MySQL, incorporating real-time scoring and responsive design. Created RESTful APIs and managed efficient database interactions to ensure smooth and seamless user experience.

Poultry Farm Disease Detection : Designed a Raspberry Pi–based smart poultry farm system utilizing CNN algorithms and camera modules for real-time image processing and disease detection, enabling early infection identification and automated farm monitoring.

Personal Portfolio Design: Created a professional portfolio website using Figma and Canva, emphasizing responsive design and visual hierarchy to showcase projects, skills, and branding effectively.
